We've partnered with certified EV charger installers to offer you fixed-price home installation packages. Book directly with listed providers and get your charger installed with ease and transparency.

PLEASE NOTE:

- For customers living in a building, FM team approval and a site survey are required.
- Exclusions: Excavation works (civil works, painting works), floor stand, and foundation.
- For distances greater than 20 meters, a site survey is required.
- Al-Futtaim does not assume responsibility for delays or service-related issues associated with third-party installers. Customers are advised to liaise directly with the service provider for any support.
